

How to Manage Registration of Learners in a Classroom

With ProProfs, you can manage the registration of learners in the following ways:

1. **[Add learners manually to a classroom](#)**: With ProProfs, instructors can easily add new learners to the classroom using their emails addresses or IDs (usernames).
2. **[Bulk upload an excel sheet of learners](#)**: Instructors can bulk upload details of users to the classroom and create hundreds of user accounts in a single step.
3. **[Learners self-enroll to default groups](#)**: Instructors can allow learners to self-register to a particular quiz, course or group and save time and effort.
4. **[Learners self-enroll to a specific group using join code](#)**: Instructors can allow learners to self-register to default group(s) to save time and effort.
5. **[Self-enrollment via Google sign in](#)**: Instructors can also allow learners to self-register in a classroom via Google sign in. Users can use their own Gmail account to register for the [classroom](#). Once authenticated, your end users will be part of the classroom.
